FILE HEADING.

Augmentation of the Police force at Kamanabai.

From

The I.G. of Police in Mysore.

No. 1265-141 Dated 8.9.13 Received 9.9.13

Diary No. J870	Enclos. 3	Spare Copies. –	Serial No. /

BRIEF ABSTRACT OF LETTER.

Requests sanction to the entertainment of an additional force of 1 Jamadar and 10 constables at Kamanabai at a cost of Rs 116 per mensem.

NOTES AND ORDERS.

The staff originally proposed by the I.G. & that sanctioned by Govt. for Kamanabai are noted below:–

P.T.O.

NOTES—First Sheet.

Serial No.

Proposed by the D.G.	Sanctioned by Govt
1 Inspector.	1 Inspector
2 Jamadars.	1 Jamadar.
3 Daffedars.	2 Daffedars.
38 constables.	26 constables.

2) The D.G. now proposes to strengthen the staff by the addition of:-

1 Jamadar on Rs 25+8 = Rs 33
3 constables on Rs 8+1 = Rs 27
7 constables on Rs 7+1 = Rs 56

Total Rs 116 per mensem or Rs 1392 per annum.

3) The reasons assigned for the increase are:-

(1) The Godic population and the area occupied by them have increased since the establishment of the present staff.

(2) The measures that are required to keep peace and order among the Godis are more of a precautionary than of a punitive nature and that therefore it is essential to have a strong & imposing force.

(3) Owing to unhealthiness of the place casualities due to sickness are many & frequent.

NOTE—Contn. sheet.

Serial No.

(4) Work has begun on both banks and one Jamadar cannot work after both the banks

4) As regards the additional Jamadar proposed, it is a matter for consideration whether it would not do to draft a competent Jamadar to Kannambadi & appoint in his place a Jamadar on Rs 20+8 as is being done in the case of the present Jamadar {Vide G.P. no. J8336-6-Police 112-11-4 D/10.5.12, para 1, sub para (b)}

Collection Staff 7 I

5) Govt. have, in their order no. J833-4-Police 22-12-4 D/8.9.13, sanctioned an extra allowance of 20 per cent of his pay to the Jamadar now stationed at Kannambadi. This allowance will have to be given also to the additional Jamadar now proposed.

7 X

6) So the extra expenditure involved in the ~~D~~ I.G.'s proposal will be Rs 116 + 20 per cent of the pay of the additional Jamadar per mensem.

7) Br II has to be consulted as the proposal involves extra recurring expenditure. Provision for this will have to be made in future budgets. It is not known how the extra expenditure during the current year is to be met.

has now increased to 8 square miles + the necessity of preventive action in the cases of the coolie classes congregated in the works. It is difficult to offer any remarks apart from as to the necessity of the increased establishment, in view of the repeated statement of the head of the Dept that an increased force is necessary in the interests of peace. There is no doubt that the work is now going on more highly on both banks + that the number of coolies has increased.

16) The proposals of the DG. may therefore be sanctioned. The cost should be met from the Police budget, as was ordered last year with reference to the main force

Dr Lee

17) A draft may be moved.

SDA 15/1

Draft 15/11/13

18) Subd. with a draft as ordered. The additional cost will be Rs 131/- a month not 116 Rs as stated by the DG. The reason for this is that the pay of the constables

1 Jamadar. 25+8+5½ = 38½ Rs
7 Constables 2nd class (7×8)+7 = 63 Rs
3 Constables 1st class (3×9)+3 = 30 Rs

	13/3-10 14
SECTION	Police FROM
FILE No.	65-13
SERIAL No.	1

No. 1245 Enc 1 with its 141 enclosures in original

Dated Bangalore, 8th September 1913.

C. Srikantesvara Aiyar Esquire, B.A., B.L.,
Inspector-General of Police in Mysore.

To

K.R. Srinivasiengar Esquire, M.A.,
Secretary to the Government of H. H. the Maharaja of Mysore,
General and Revenue Departments.

SIR,

I have the honor to forward herewith copy of letter No. 77 dated the 4th August 1913 received from the Superintendent of Police, French Rocks Circle, through the Deputy Commissioner, Mysore, bringing to notice the pressing necessity for the augmentation of the Police Force at Cauvery Reservoir Works near Kannambadi and to state as follows:-

77

2. At the time the proposal was first made for a Police Force at Kannambadi, it was considered that the gangs of coolies would occupy a small area not exceeding 4 to 5 square miles for which a force of 36 constables was recommended and Government sanctioned 26 constables instead. Now, with the progress of work the number of gangs has increased and the area occupied by them exceeds 8 square miles. Consequently the present strength has been found to be quite inadequate either to cope with the situation or even to perform the mere patrol and other routine duties.

3. The cooly population that has congregated at the works, consists of waddars, and other disorderly classes, and notorious for their mischievous quarrelling propensities; they fly at each other's throats on slightest pretexts, and there have already been some bad incidents foreboding breaches of peace which happily have been averted. Any attempt after

Police 049 (4 Nov

FROM *The Inspector-General of Police in Mysore.*

To

The Secretary to the Govt. of H. H. the Maharaja of Mysore, Gen. & Rev. Depts.

Dated 8th September 1913.
Despatched
Received

General No. 1245/141
No.

Enclosure No. 1 with its enclosures in original

Soliciting sanction of Government for the entertainment of additional Force at Kannambadi.

GPB—200—8-1-13

the deed to bring the wrong-doers to justice will merely have the effect of scaring away from the works whole gangs, to which the offending individuals belong with large advances outstanding against them, much to the prejudice of public interests involved. Therefore, in the case of such classes of people precautionary, rather than punitive measures are the more necessary; and in order to prevent disorders and free fights it is absolutely essential to have a strong and imposing Force.

4. Another reason also for strengthening this Force is that owing to the unhealthiness of the locality, the casualties due to sickness are many and very frequent.

5. It is therefore very necessary to raise the number (1) of constables from 26 to at least 36. After receipt of Government Orders sanctioning the extra force, necessary instructions will be given to the District Superintendent of Police to change the men once in 3 months, which I consider is also essential.

6. In the commencement construction work was brisk only on the right bank but for sometime past work has been progressing on both banks. Hence it is impossible for one Jamedar to attend to the Police duties on both banks, crossing the river every time at all hours of the day and night. So, the entertainment of another Jamedar is also necessary. (2)

7. Under the foregoing circumstances, the minimum strength of constables needed is 36 and another Jamedar for the South bank, the extra cost of such an establishment being:-

3 1st. Class Constables	@	Rs. 9/-	27
7 2nd. "	@	" 8/-	56
1 First Grade Jamedar	@	" 33/-	33
			Rs.116/- per mensem or Rs. 1,392/- per year.

8. I have therefore to request that you may be so good as to obtain early sanction of Government for the entertainment of this additional Force which is quite indispensible at Kannambadi for preservation of peace and order.

I have the honor to be,

Sir,

Your most obedient servant,

Asst. to the Inspector General of Police,

For Inspector General of Police,

Absent from Station.

Letter No. 77 dated 4th August 1913 from the Superintendent of Police, French Rocks Circle, to the Inspector General of Police in Mysore - Through the Deputy Commissioner, Mysore District.

I have the honor to state that the satisfactory performance of Police duties at the Cauvery Reservoir Works has been engaging my careful attention ever since I took charge of this Police Circle on the 12th June last.

2. The Police officers and men located there have been ~~there have been~~ making personal representations about the various difficulties experienced by them. The men have been bitterly complaining (a) about the inadequacy of their pay in a costly place where even an ordinary cooly earns about 8 annas per day, (b) the unhealthiness of the place and (c) the risk to which they are constantly exposed in the midst of large numbers of rowdy vodders. The officers complain of the want of sufficient Police Force to control a peculiarly bad set of vodders, and other workmen whose number has ~~multified~~ multiplied itself manifold, since the time the strength of the Police Force for the place was sanctioned in Government Proceedings No. J.3334-6/Police 112-11-4 dated the 10th May 1912. The frequent absence of the constables on some pretext or other is another matter brought to my notice by the officers; and the real and chief causes of this, are the inadequacy of their pay to maintain themselves and, to some extent, the unhealthiness of the locality.

71 Z

3. The Superintending Engineer, C.R. Works has also more than once brought the matter to my notice whenever on enquiry he learnt that there were absentees among the Constables, and the patrol and guard duties consequently sufferked.

4. I have myself, both from private enquiries and personal observations during my visits, studied the working of the Police with a view to suggest necessary remedies wherever there

were defects. I also called for a report from the Inspector, C.R. Works, with sketch of the locality. These were received, and they are herewith submitted for your kind perusal.

5. The Inspector, in his report, urges the necessity for the augmentation of the Force by one Jamedar and 29 constable whereby there would be one Jamedar on each bank of the river with sufficient men, and the Police duties could be more readily performed without loss of time in moving from bank to bank. The Inspector desires also to be relieved of the duties of guarding and escorting the treasure. His representation no doubt deserves careful consideration as it is made in the light of experience gained by him on the spot; but I am afraid that the increase proposed by him may be viewed as somewhat extravagant. I am, however, of opinion that the sanctioned strength is too inadequate to control the increased population which consists of very large numbers of men from various parts of Mysore and the bordering Presidencies, the Vodders gangs being the most formidable. It has not yet been possible exactly to gauge their criminal proclivities. Even if they do not show unmistakable signs of these, their drunken brawls and quarrels over women, are events of almost everyday occurence; and each gang is so numerically so strong and its rowdyism is of such violent type that, it is to be feared that the existing Police force may be found unequal to the task of putting down these disturbances, when they assume abnormal proportions, as they are very likely to do. Hardly a day passes without calling for the aid of the Police, either at the tavern or the huts of the vodders. These and other numerous difficulties of practical working are better realised than described, and I fully endorse every argument which the Inspector has submitted in his report in favour of increasing the force, and thus strengthening his hands. I can confidently say that from the beginning to the end of the report. he speaks from personal experience of the

difficulties through which he has been long and severely tried.

6. The Vodders have shown themselves to be of such turbulent nature, that they may not hesitate even to assult the Police, when attempts are made to bring them to order, unless a stronger and more imposing force is kept in their midst, and they are made to feel that the arm of the law is strong enough to reach them, and bring them under control. A very serious rioting between two gangs, which would have ended in bloodshed and loss of lives, was saved from serious consequences by the tactful handling of the situation, by Jamedar C.R. Subba Rao. I had also to hasten to the spot with some Reserve men and extra help from Seringapatam with a view to quell the rioting, as it was reported to me at the time that the available force at at the C.R. Works was unequal to the task of putting down the anticipated troubles. I have not submitted further details of the matter here as they have already been brought to your kind notice in my confidential diary of the time. That things have reached a crisis is further evident from the latest instance in which the troubles have presented themselves in their most serious aspects. On the 29th of last month, some of the Vodders of one gang waited for and attacked a party of another gang while returning home. An old woman succumbed to the injuries, the situation, however, fortunately ending there with less fatal injuries to the others. The Vodders are all of the C.R.Works, though they reside beyond the jurisdiction of the C.R. Works Station. It was the latter station which was the nearest to the spot and it was to the C.R. Works Jamedar that the Daffedar of Kannambody resorted for help in the emergency.

7. The C.R. project takes many years before reaching completion, and it has attracted labour from all directions. Persons and tribes of varying and conflicting temperaments and habits have been brought together, and the result can hardly be different from what it is showing itself to be. It is but the beginning of the trouble that we are now seeing and the further

developments of it are fraught with serious consequences. The recent case referred to above under Sections 147 and 304 I.P.C must have already told on the progress of the Works as it involves the arrest of 18 adult Vodders from the gang of the coolies; and the mental depression which this means to the friends and relations on either side will have equally retarding effects.

8. Under these circumstances, I submit that the situation deserves every consideration and the question of extra cost involved in the following proposals which I presently submit, cannot be allowed to weigh much with the Government as the issues are of a serious nature, and the maintenance of peace and order and the prevention of crime at the C. R. Works depends on the strengthening of the Police force there. In the scheme which I herein submit, even the extra cost involved will be at the minimum possible and consistent with efficiency and adequacy under existing conditions.

9. As I already submitted, the increase of the Force requested in the enclosed report of the C.R.Works Inspector, may appear extravagant, for the present at any rate; and till the time comes when even such increase will have to be sanctioned, I propose, that sanction may be obtained for the full strength of constables which you requested of the Government in
7CZ your letter No. 3778-458 dated the 22nd March 1912 to the Government, with a local allowance of two rupees to each constable and four rupees to each Daffedar.

10. The addition to the present Force thereby given, would not be sufficient by itself. But there are two items of duty at present being performed by the Police constables, which may very well be taken away from them as such duties are being performed elsewhere, not by Police constables but by sepoys of

the Barr Force. I refer to the duties* of escorting the treasure conveyed weekly from the District Treasury at Mysore to the C.R. Works, and the duty of guarding the P.W. Officer's cash chest at the C.R. Works. As regards both these items, I have already addressed you separately in my letter No. 53 dated 24th July 1913 and I herein repeat my request that the proposal therein made may be sanctioned early and permission accorded to me for withdrawing the men now detailed for the purpose. The withdrawl of the men from their present escorting and guard duties connected with Treasure, and the increase in the Force asked for, are both necessary for the reasons already submitted and the last but not the least important reason that the Vodder camps are scattered all over the surrounding country, as may kindly be seen from the sketch map herewith submitted; and, if the supervision over the rowdy classes is in any way to be effective and frequent out burst of violent temper have to be suppressed in any degree, it is absolutely necessary that the Vodder camps should be more often patrolled and the existence of a controlling Force brought nearer home to these unruly people, neither of which purposes, can be adequately effected without an increase in the existing Force.

* file linked. The subject is under consideration. 7/8/14.

11. Closely allied to my above proposal in a subordinate relation are two subjects to which also I request your very favourable consideration. Firstly, the constables now doing duty at the C.R.Works have been taken from the different taluks of this Circle and they naturally feel themselves isolated under the present system of keeping them there without prospects of transfer or other change. While the place itself is somewhat unhealthy, the sense of isolation which the constables feel is more than partly responsible for the almost daily reports of sickness and hospital attendance, which, it must be suspected, some of the constables may convert into a means of obtaining

leave and running away to their native places. However that might be, the result is confusion and derangement in the discharge of the Police duties. And considerations other than those of discipline, naturally arise when repeated complaints founded on actual illness are brought in and the constables trace it all to the natural conditions of the locality, and the unsuitability of the climate otherwise. To force the sickly men to keep their place would only be coercion used in the name of official authority. The work put in by such men can only be half hearted at best.

12. The above state of things would be remedied by treating the C.R.Works Force as part and parcel of the District Reserve and allowing periodic inter-change between the two stations, of equal number of men, and even of officer if so thought fit; the present strength of constables in the District Reserve which is 30 in number, being also increased at once, at least by 6 more men to attend satisfactorily to the various duties to be performed by them. There would thus be 36 constables in the Reserve and an equal number at the C.R. Works. Such an arrangement would, in the first place, remove the feeling among the men that they are permanently banished to a place without hope of transfer or other change. Next, we would thereby have two sets of men acquainted with the local conditions of the C.R. Works and the surroundings. An exactly similar practice prevails in the case of Police constables at the Bluff in the Malavally Taluk. They are changed once every quarter from among the men in the Taluk and the ghat allowance allowed for the Bluff, is attractive enough to induce willingness in the men.

13. The period I would suggest for changing the Force is three months as in the case of the Rottekatte station. When the C.R. Works Force was first organised, Mr. A.Krishnaswamy Iyengar, then Superintendent here, seems to have in contempla-

tion a period of six months for the purpose. While accepting the principle of a necessity for a periodic change of the Force I would cut short the period itself so as to bring it to be on a line with also what obtains in the case of Barr sepoys.

14. The second point for your consideration in the same connection is the kind and color of the dress to be supplied to the C.R. Works Force. The appearance and trimness which the constables on duty present to the Vodders and other workmen carry their own effect on the minds of the latter; and in my opinion, the dress supplied to the City Police would serve the purpose admirably. Not only this consideration of effect but also the climatic and other physical conditions of the place require an improvement in the dress and other articles of uniform at at present supplied to the men, especially in the matter of foot-wear. The ground is all rocky and the ordinay chapalls would not stand the wear and tear. Moreover, they would leave a great part of the foot exposed to the stony and thorny condition of the ground and it is not infrequently that I have personally seen bruises and injuries to the feet of constables on duty there. Boots of the kind supplied to the Special Reserve or the City Police may be directed to be issued to the Force at C.R.Works. The C.R.Works, being a great feat of engineering skill and of industrial importance, would attract distinguished visitors from all parts, and it is only in the fitness of things that the Police Force there should present an appearance of trimness and neatness found in the Cities of Bangalore and Mysore.

15. With these changes in the existing state of things there is reason to hope that we shall hear less of illness among the men and more cheerfulness for work, and greater promptitude and perfection in the discharge of the Police duties, I therefore

request

request that they may kindly be sanctioned.

"C O P Y."

M Lakshmanasastry

For Inspector General of Police.

Q.C.O. 33

Report G.C.O. 1307
26-7-13

26-7-13

Mr Venkatapathiya
Please study &
put up a draft —

27.7.13

I beg to submit the following proposals for the increase of the police Establishment at the Cauvery Reservoir works for favour of perusal and orders :-

Area.

The present area of the main works is about 9 square miles in extent composed of chiefly the damsite, workshops, Officers' and Subordinates' quarters, Shop lines and coolie camps etc. Outside this area there are also about 1000 labourers working at the stone quarries near the Villages - Mudanahalli and Baby etc about 4 miles and 6 miles respectively from the damsite in the limits of the other police Stations.

Ask the Inspr
to enquire as
how the ascertained
the population

27-7-13

Population.

Excluding the Coolies etc, working at the stone quarries near the Villages referred to above, the population at the main works comes up to about 8000. This population has been increasing day by day as this Works is rising in importance

in India demanding labourers from various parts. During day time, some of the men working at the quarries generally engage themselves near the dam site in the main works.

Station.

At present, there is only one station on the South Bank. Since the North Bank has also risen especially in importance with the South bank, and as the river is not fordable during flood seasons, one more Head-station is absolutely necessary on the North Bank. Much time is being wasted now by the police officers and men stationed on the North bank by coming over the long distance from there to the South bank for want of a separate Station building there.

present allocation.

Government, in their proceedings No. J 3334-6. pol 112-11-4, dated Bangalore 10th May 1912, have sanctioned one VIII grade Inspector, one II grade Jamedar, two III class Hoffedars, 9 I class and 17 II class constables for duty on both the banks of the river. This force is quite inadequate to meet the beat duties, Station duties, guarding of the D.P.W treasury and other miscellaneous duties which are

being experienced for the past a year and a quarter. This allocation was sanctioned when the works were just started. Now, the Works are much advanced and the popula-tion has swelled considerably.

proposed allocation of the force.

As the present strength cannot cope with the multifarious police duties of this place, I propose for the increased staff for the duties which are quite inevitable as narrated hereunder :—

The map of the works with the proposed beat circles marked on it in red lines, is hereto enclosed and I describe the beats thereon as follows :—

For South Bank.-

I Beat composes of the damsite, workshop, Mortor pan yard, stocking yard of the materials, water pumping station, sheds of Drivers, fitters, watchmen etc, Engineering Offices, post Office, grog shops etc. This beat requires 6 constables to do duty by 3 turns 2 at a time (one constable standing at a fixed place and the other patrolling), as this is the most important place where large

number of persons assemble.

II Beat - comprises of the Subordinates' Quarters and Maratha camps where masons and Navaganees of different castes and places are put up etc,. this also requires 6 men to do duty by turns 2 at a time one standing and the other patrolling.

III beat comprises of the bazar lines, Camps of carpentors, coolg woddars and other professional workmen of different places and castes etc. this also requires 6 men to do duty by turns as noted above.

IV Beat - composes of the Officers' Quarter and the adjacent woddar camps. Only 3 men are required for this beat to do duty by 3 turns one at a time.

To watch at the ferries to prevent overloading of persons, only one Constable may be deputed, since the ferries pass from bank to bank only at limited times during the daytime.

For Station pahara, 3 men are required to be present by turns as the important duty of guarding the lockups devolves on them at times.

Station writer one constable.

Inspectors' orderly one constable.

In reserve, 3 constables to attend to

miscellaneous duties such as serving of processes, detective duty, relieving of beat constables if any of them fall sick on account of this bad climate, or go on leave, or absent etc, etc.

One more II grade jamedar is quite necessary for this bank to handle promptly if any crimes are reported during the absence of the Inspector on Court duty or detective duty elsewhere outside the C. R. works.

For the North Bank:-

I Beat comprises of the damsite, mortar pan yard, workshop, stocking yards of the materials, camps of Masons, Navaghanics Mechanical establishment, water pumping station etc,. This requires 6 men to do duty by turns as noted for the South bank beat no I.

II Beat comprises of Officers' and Subordinates' quarters, Shop lines, Sheds of Mistries and servants, grog shops and the explosives magazines. This also requires 6 men to do duty by turns as noted for the South bank beat no II.

III Beat comprises of woddar camps put up on the ridge between Katteri Village and the Officers' and the Subordinates quarters and also the woddar camps situated on the ridge between the C.D.S. anicut and the Subordinates' quarters. This requires only 3 men to do duty by turns as noted in no IV beat for the South bank.

IV Beat comprises of woddar camps situated between Chikkairhalli and Officers' and Subordinates' Quarters and no I beat. This also requires 3 men to do duty by turns.

To guard at the ferry only one constable is required as noted for the South bank.

For station pahara 3 men.

Station writer 1 man.

In reserve 2 men to attend to the duties as noted for the South Bank.

N.B:-

The two constables who are now on duty at the Paschimavahini Railway station may be withdrawn as they are not turning out any useful work there.

Ammunition boots may be supplied to all the constables as the Sandals which are now supplied

Dress etc. of the Force.

will be worn out in a month since this place is hilly and also contains abundant groves of date trees. The slight wounds if any are accidentally caused on the legs, will enlarge themselves into bad incurable ulcers and thereby make the person incapable of walking. In case the boots are supplied, I propose that the city-police uniform may be fully given to all the Officers and men so that they may appear more decent, and that the Jamadars and Daffedars named as Head Constables and Sergeants. This Works is also being visited very often by State Officers and other Noble men from different States.

The Sergeants and the Constables may also be given fresh metal numbers commencing from 1 to 57 to facilitate the inspection of their kit and the preparation of the Salary bill

Arms and ammunition etc- In addition to the proposed increased allocation of the force, sufficient number of short carbines and ammunition may

also be supplied to train men in drill with arms and thus keep them in trim to engage themselves, as deemed necessary, in times of unlawful assemblies, rioting, etc. which may occur at any moment for trifling quarrels among the Woddar population who are very rude and rowdy, and thereby avert promptly the disturbance of the public peace without indenting upon the District Reserve for help during such occasions.

As marked in red ink in the enclosed map, our police jurisdiction

jurisdiction.

jurisdiction may be definitely defined, Only the Hongabally village being brought under the jurisdiction of the South bank Stations. The rest of the area are all the waste lands and the fields belonging to the other villages situated in the limits of Belagola and Kannambadi Sub stations which are at a distance of 3 and 2 miles respectively from the main Work spot. If the jurisdiction which I have proposed as noted above is increased, it may give room to the police Officers of this place to camp out and thus be absent at

the main work spot where their presence is absolutely necessary as the disturbances of the public peace are anticipated at any time with the rowdy population of this place.

Treasury guard and the Treasury escort.

The D.P.W. treasury on the South bank, and the Cash boxes of the nos. II and III divisions of the P.W. Department on the North bank which contain two to three thousand rupees are now guarded by our men. The guard which we furnish is not in conformity with the usual Barr-guards given for Taluk Treasuries. I therefore propose that this duty may be changed from us to the Barr- department. I do not also propose to furnish any guard at all for the Cash chests on the North Bank as this duty may be easily done by the D.P.W. as elsewhere.

The escorting duty of the heavy treasury amount (Rs 20000 to Rs 30000) from the Mysore District Treasury

every week, may also be caused to be changed from us to the Barr department as we cannot provide sufficient escort with the available police force of this place. In case this duty of guarding the Treasury and also the ~~the~~ furnishing duty of sufficient escort are forced upon us; more men are required than what I have above proposed

The following statement shows the present and the proposed cost of the establishment. The proposed cost of the establishment does not exceed the cost of an ordinary Kalutara police establishment :—

Cost of the Force.

present cost							proposed cost							
Stations	Inspector III Gr. on Rs. 40+15	Jemadar II Gr. on Rs 20+8.	Daffadars III Gr. on Rs. 12+2	Constables I class on 8+1	Constables II class on 7+1	Station contingent	Total cost per month	Stations	Inspector III Gr. on 40+15	Head constables II grade 20+8	Sergeants III Gr. on Rs 12+2	Constables I class 8+1	Constables II class 7+1	Station contingent	Total cost per month
For both the banks only one station in South bank	1	1	2	9	17	6	Rs. 334	South Bank	1	1	1	5	26	6	599
								North Bank		1	1	4	21	5

3. Correspondence ending with letter no. 1524/165 dated 24th Septr 1913 from the same officer stating that the extra expenditure resulting from the entertainment of the additional establishment referred to above has to be met by a special allotment which would be charged off against the Cauvery Reservoir Works.

Order thereon:

On a careful consideration of the question, Govt. agree with the I.G. that an increased force in the area concerned is necessary in public interests and are accordingly pleased to sanction the marginally noted temporary force in addition to that already stationed at Kannambadi at a cost of Rs 131/a month or Rs 15-72 a year

1.	Jamedar	Rs 25+8 H.A. +5 l.a = 38 Rs
3	constables 1st class	9+1 = 30 Rs
7	constables 2nd class	8+1 = 63 Rs
		Rs 131/a month or 15-72 Rs a year

The additional cost will be met by a re-appropriation of funds from out of the sanctioned grants in the Police Budget during the current year, due provision being made

28

therefor in the next year's Budget.
